- Koy Meng School:	216 -	Boy: 96	Girl:120

Updated news

Oroluos and Beng schools

- Each school has resettled and selected new students with various levels for the new year term of 2024.
- Narim, who is our teacher at Oroluos school has resigned and replaced by Mr. Vanthon.
- Owen and his wife Lisa revisited all the school and helped interview the teachers to replace.
- We finally found a new teacher, his name is Vanthon. He is a young and smart teacher with 2 years of teaching experience.
- We have given out our studied materials such as books, pens, pencils, pencil sharpener, etc...from the storeroom at Oroluos school to new students from both schools, Oroluos and Beng who are poor and lacked.
- Many students from further villages come to study at Beng and Oroluos schools. Most of them are secondary and high school students.
- We have some trouble for our teachers teaching the kindergarten class because there are too many students.
- On behalf of our teachers at Oroluos school, we would like to request one more teacher teaching for 4 hours. The new teacher will be teaching the kindergarten students that dividing from other class.

In the evening, the new teacher will also teach the secondary school students who would like to study. I am thinking of using the library for putting a new classroom. We can put 15 students in the library as it is a good number for a teacher to teach.

- We also have one more request from the teachers to fix the walls of the classrooms. During the weekend, Kids come from outside climb in and destroy all pictures and flowers that are decorated by the teachers and students. Teachers have asked me a few times already, but I told them that we do not have enough funds for the classroom wall's renovation.
- May all the committee members consider these two requests above? I am happy to give you a quotation for the classroom's renovation.
- All good at Beng school. Teachers and students are happy to teach at learn.

Kok Beng school

- All good at Kok Beng school. We have managed and resettled the level of the students. We have canceled Mr. Oudam's class due to the smaller number of students. Most of the high school students did not have enough time to come and study English because their teachers at the state schools asked them to study the extra lessons with them.
- We have announced to find new students, and many turned up. Most of them are students who student in secondary school. So, from now on, there is a good number of students studying English in both classes. Mr Oudam still handles the higher-level class.

Koy Meng school

All is good at Koy Meng. Our wonderful teachers have been doing a great job there. There are a lot of new students coming to study, especially with our teacher Ms. Chantry. Those are free during the evening after leaving from the state school. The numbers of students have been increasing in all classes.

Please give me some reviews if there is any info missed out.

Current first aid kit. We have not used any of these this month.

- Band Aids: 8 packets
